

CHECKLIST

Rehoming Requirements

SECURE SPACE

- Secure run - free ranging only when supervised/ guaranteed safe from predators
- Closed space/coop for night time with perches. Omlet coops do not have perches however can be easily adjusted. We can provide perch inserts or a guide to building them yourself in 3 simple steps with recycled materials.

ENRICHMENT

- Dust bathing facilities
- Perches (nothing fancy required - old branches do the trick)
- Access to covered water and feed

HUSBANDRY

- Runs and coops cleaned regularly
- Access to a good vet. We can recommend a Bristol based vet who is able to do national video calls.

NUMBERS

- An appropriate number of chickens for the space - ie not overcrowded and never one left on their own.
- Appropriate number of hens to cockerals (and absolutely no breeding)

IF YOU DO NOT MEET ANY OF THESE REQUIREMENTS, PLEASE LET US KNOW AS WE MAY BE ABLE TO PROVIDE THEM (E.G. PERCHES, DUSTBATHS ETC)
